Soft Foot

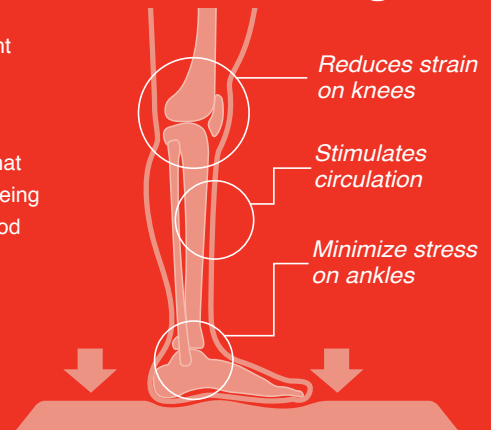

Standing on hard surfaces for long periods of time produces detrimental effects on the body.

Apache matting offers:

- Reduces fatigue from standing, easing pressure to feet, legs and back.
- Softness, support and better weight distribution.
- Reduced impact on joints.
- Resilient foam construction. The mat "bounces" back to the foot when being compressed, which stimulates blood flow and alleviates fatigue.

The Orthopedic Advantage

- Rugged diamond deck plate provides great traction and wear characteristics.
- Spark and flame retardant. Excellent for all welding applications.
- Great mat for any industrial work cell needing comfort.
- Beveled edges for added safety.
- Limited 3-year warranty against wear and delamination.

Spark Resistant

New, green foam technology with exceptional comfort

- Phthalate free foam.
- 5/8" thick Ultra-Comfort foam.
- Two layer foam technology – super soft extra resilient bottom layer with a tuff-wearing surface pattern.
- Limited 2-year warranty against wear and delamination.
