- Automatic emergency safety switch instantly reverses direction if control post comes in contact with obstacle.

Easy fingertip controls.

High torque motor drive.

**Battery Powered System provides both propulsion and lift!**  
**Eliminates the stress and strain of lifting and transporting heavy loads.**  
*All Wesco power lift stackers can be ordered as power drive models (except for telescoping models). All other operating specifications are the same as equivalent power lift-only models. To order, simply add "-PD" to the end of the Model #. See charts on pages 62 & 63 for a complete listing.*
