

LIFT TABLE LADDER

5 step thru 8 step

THE COTTERMAN® LIFT TABLE LADDER provides powered retrieval and/or stocking at fixed shelving heights. The primary purpose is to handle dense items that are more efficiently lifted rather than carried up the ladder. Lift table is raised/lowered from hand held controller, located on top step.

- 350 lb. ladder capacity.
- 300 lb. table lifting capacity.
- 20"Dx30"W lift table. 24" wide expanded metal steps.
- 20" deep top step.
- 42" guardrails.
- (2) 6V deep cycle batteries.
- 10 amp battery charger.
- Dayton 12V DC winch.
- Lift Table ladders meet applicable OSHA and ANSI standards.
