FOR REALLY TOUGH
INDUSTRIAL APPLICATIONS

DURATOUGH™

DURATOUGH™ CABINETS

Classic Series cabinets are fabricated from prime grade cold rolled sheet steel.

Galvanite Series cabinets are fabricated from galvanized sheet steel which has a zinc-iron alloy coating that is applied at the mill providing protection against high-humidity and moist environments. This coating also prevents corrosion from spreading when the paint and/or coating is scratched away.

Heavy-Duty cabinets are fabricated from 16 gauge sheet steel and are fully-welded creating a rigid, durable unit.

Extra Heavy-Duty cabinets are fabricated from 14 gauge steel which is 25% thicker than 16 gauge providing **MAXIMUM** durability.

Safety-View® Series cabinets incorporate polycarbonate panels in both doors of our extra heavy-duty Classic Series cabinets allowing contents to be visible without compromising security.

Ventilated Series cabinets are fabricated to the same rugged standards as our extra heavy-duty Classic Series cabinets with the added benefit of being fully ventilated with diamond perforated doors and sides and a 13 gauge flattened expanded metal back.
