

Pallet truck with weighing scale

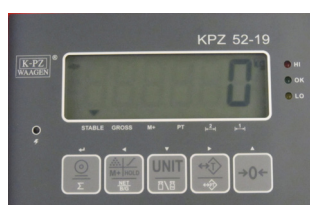

With the weighing scale pallet truck, WSP 2200, you can transport and weigh goods in the same working process.

It is a valuable and very time-efficient solution for customers in e.g. storage areas, who need to inspect incoming or off-shipping goods.

The weighing system has a high accuracy. It has four strong weighing cells, and a solid and very well protected display. The display is user-friendly and has logic and simple settings. It is centrally located, which gives the operator easy access to read the weight.

The construction of the pallet truck is strong and solid, and as with all of our pallet trucks, is very easy to operate and maintain.

We use a special oil for all products, which is tested in cold atmospheres down to at least -10 degrees C.

Can weigh up to 5000 lbs.

Panther customized

If you have special requests for fork lengths and/or fork span, we have our manual customized Panther.

Fork lengths from 24-94 inches

Fork span from 14-43 inches

In addition, it is available with different wheel types, with drum forks, as well as it has adjustable fork height.

We use a special oil for all products, which is tested in cold atmospheres down to at least -10 degrees C.

ETT - Economy manual pallet jack

With an ETT pallet truck you get a pallet truck, for which the price is adjusted to the quality.

The ETT pallet truck is easy to pump and very easy to operate and maintain. The ETT pallet truck is very manoeuvrable and can contribute to a better utilisation of space in storage and production areas.

The ETT pallet truck is strong and very durable.

We use a special oil for all products, which is tested in cold atmospheres down to at least -10 degrees C.
