R MOBILE CABINET

Rousseau's R Heavy-Duty Mobile Cabinet is one of the safest and most secure on the market. With a simple upward movement with just one hand on one of the drawer's ergonomic handles, the drawer opens with incredible ease, and the lock-in mechanism is activated so none of the other drawers can open.

It is also easy to change the cabinet configuration as the drawer order can be changed at any time. Our specialists will be happy to help you configure a cabinet personalized for you and tailored to your customers' specific requirements.

The R Heavy-Duty Mobile Cabinet is manufactured to meet the rigorous demands of industrial applications and is therefore one of the most durable on the market. Our research and development department has put the cabinet through multiple demanding tests for load capacity, impact resistance, and wear and tear, so we are confident in its excellent durability. Fitted with high-quality, resistant casters, it has been designed for intensive use in harsh work environments.

There is also an extensive range of options and accessories available to further customize it to your needs. There are 6 different tops, 2 types of handle (on the front and side), foldaway shelves and hanging side cabinets. Furthermore, you no longer need to worry about replacing complete units as your business grows and evolves because these options and accessories can be easily retrofitted.

The unique design of the R drawer is a trademark of Rousseau Metal Inc.
