## Casters For Steel Carts

**Jamco carts offer unique twin-hole pattern caster mounts that will accept casters with 1-3/4" x 3" & 3" x 3" bolt hole patterns (unless otherwise noted).**

### Wheel Characteristics

- Phenolic - Best rollability, high strength, hardest material.
- Rubber - Best if floor has debris, quieter roll.
- Polyurethane - Best if floor conditions vary, non-marking.
- Thermorubber - Gray non-marking, soft rubber for quietest roll and best floor protection.
- Steel (semi) - High shock and impact resistant.
- Full Pneumatic - Absorbs shock and vibration, quiet movement, best for uneven floors or transporting over ridges in floors or mezzazines. Requires periodic maintenance.
- Semi Pneumatic - Same as full pneumatic without maintenance of air.

### Brakes

- Wing Brakes (Toe) - On swivel casters only, must be ordered with caster.
- Floor Lock - Mount is welded in place, makes models not returnable.
